Produktbeskrivning

DY primer för metall till UV-skrivare

**UV Primer DY Pre-coating liquid
for Metal 1000ml**

Lot no.: 2508T0441

Compatible printheads:

DX5 | DX7 | TX800 | XP600 | I3200 | I1600 | 4720 | 1390

CAUTIONS:

Harmful for aquatic life. Causes skin and eye irritation. May cause an allergic skin reaction.

Personal Protective Equipment (PPE):

- Wear eye protection (goggles or a face shield). Direct contact can cause serious and permanent eye damage.
- Do not use chemical-resistant protective gloves (e.g., nitrile). Use only a nitrile barrier.

Safety Handling:

- Avoid contact with skin and clothing.
- Do not touch the eye with bare skin. In case of contact, immediately wash skin with soap and water.
- Avoid contact with fire and heat sources.

First Aid:

- Eye Contact: Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.
- Skin Contact: Remove contaminated clothing and wash skin with soap and water.
- Inhalation: Move to fresh air immediately.

Storage and Disposal:

- Store in a tightly sealed container in a cool, dark, and dry place, away from sunlight.
- Dispose of this and empty containers in accordance with local chemical waste regulations.

Primer för metall (UV Primer) är ett specialiserat kemiskt medel som fungerar som en **adhensionsbro** mellan materialytan och UV-bläcket. Det är en nyckelkomponent i UV-tryckprocessen på svårbelagda underlag.

Ger **maximal vidhäftning** för UV-bläck på hala, icke-porösa metallytor. Förhindrar flagning, slitage och avskavning av trycket.

Hållbarhet: minst 6 månader

Kompatibla skrivhuvuden: DX5 | DX7 | DX8 | TX800 | XP600 | I3200| I1600| 4720 | 1390
